Digital Transformation Project Manager

Nava Meridian Logistics Co., Ltd. · Bangkok head office (Bang Na) · Full time

ABOUT US

Nava Meridian is a Thai logistics and distribution company with 1,200 staff, 14 warehouses and a fleet of 600 trucks. Today we run on a 15-year-old ERP and a lot of spreadsheets. Over the next two years we will replace our ERP, roll out a CRM for our key accounts, and move warehouse and transport data onto one platform.

THE ROLE

You lead this programme from the business side and with our vendors: plan it, run it, keep it on budget, and make sure 1,200 people actually change how they work.

- Plan and run the ERP replacement and the CRM rollout, from vendor selection to go-live and hypercare
- Own the programme budget and report to the CFO and the board every month
- Lead change management: training, key users, adoption
- Manage vendors, including teams in Singapore and India who work in English

MUST HAVE

- At least 5 years managing projects
- Led at least one business-system rollout end to end (ERP, CRM or a core platform), from design to go-live
- Business-level English, shown by a test score, a stated level, or work done in English

NICE TO HAVE

- Led change management or user training for a rollout
- A current PMP, PRINCE2 or Scrum certificate
- Owned a project budget of 10 million baht or more

WORKING ARRANGEMENT

At the Bangkok head office at least 3 days a week.

HOW WE SCREEN

Every application is read against the criteria above, with the evidence quoted from the resume. A hiring manager makes every decision. We do not consider age, gender, marital status, religion, photos, health or home province.

Generated for the DTX AI Buildathon. Fictional company and job.
