Rungthiwa Pakdeeburi

Project Manager, Finance Transformation

Bangkok · rungthiwa.pakdeeburi@example.com

Summary

Project manager at Klangmuang Bank, where I run finance and operations technology projects from business case to stable operation. I am at my best in the middle of a programme: getting finance, IT and the vendor onto one plan, and keeping the people who will use the system involved from the first workshop. I report plainly, raise risks early and keep my promises on budget.

Experience

Project Manager Klangmuang Bank Plc — Mar 2019 – Present

- Led the bank's SAP S/4HANA finance ERP rollout end to end, covering general ledger, accounts payable, fixed assets and management reporting for 600 finance users at head office and 4 regional centres.
- Owned the programme budget of THB 15 million and reported every month to the CFO and the IT steering committee.
- Led change management and user training: a network of 40 finance champions, 35 classroom sessions, e-learning for branch accounting staff and a two-month hypercare desk after go-live.
- Lead a core team of 12 bank staff and two vendor teams. Also ran the projects that automated regulatory reporting and cut the month-end close from 8 working days to 5.

Education

M.B.A. Finance, Thammasat University
B.Acc., Chulalongkorn University
